6. Segment Information

The Company has two reportable segments: North American wholesale operations (“wholesale”) and North American retail operations (“retail”). The chief operating decision maker, the Company’s Chief Executive Officer, evaluates the performance of its segments based on earnings from operations and accordingly, interest income or expense, other income or expense, and income taxes are not allocated to the segments. The “other” category in the table below includes the Company’s wholesale and retail operations in Australia, South Africa, Asia Pacific and Europe, which do not meet the criteria for separate reportable segment classification. Summarized segment data for the three months ended March 31, 2014 and 2013, was as follows:

9. Short-Term Borrowings

At March 31, 2014, the Company had a \$60 million unsecured revolving line of credit with a bank expiring November 5, 2014. The line of credit bears interest at LIBOR plus 0.75%. At March 31, 2014, outstanding borrowings were approximately \$9 million at an interest rate of 0.90%. The highest balance on the line of credit during the quarter was \$12 million.

10. Contingent Consideration

Contingent consideration is comprised of two contingent payments that the Company is obligated to pay the former shareholders of The Combs Company ("Bogs") related to the Company's acquisition of Bogs in 2011. The estimate of contingent consideration is formula-driven and is based on Bogs achieving certain levels of gross margin dollars between January 1, 2011, and December 31, 2015. The first contingent payment was due in 2013 and was paid on March 28, 2013, in the amount of \$1,270,000. The second payment is due in March 2016. In accordance with ASC 805, *Business Combinations* ("ASC 805"), the Company remeasures its estimate of the fair value of the contingent payments at each reporting date. The change in fair value is recognized in earnings.

The Company's estimate of the fair value of the contingent payments as recorded in the Consolidated Condensed Balance Sheets (Unaudited) was approximately \$5.1 million as of March 31, 2014, and December 31, 2013. The balance was recorded within other long-term liabilities in the Consolidated Condensed Balance Sheets (Unaudited).

The following table summarizes the activity during 2014 related to the contingent payments as recorded in the Consolidated Statements of Earnings (dollars in thousands):

	2014
Beginning balance	\$ 5,064
Interest expense	13
Ending balance	<u>\$ 5,077</u>

The fair value measurement of the contingent consideration is based on significant inputs not observed in the market and thus represents a level 3 valuation as defined by ASC 820.

11. Financial Instruments

At March 31, 2014, the Company's majority-owned subsidiary, Florsheim Australia, had forward exchange contracts outstanding to buy \$6.8 million U.S. dollars at a price of approximately \$7.6 million Australian dollars. During the first quarter of 2014, the Company also entered into forward exchange contracts to buy \$8.0 million Canadian dollars at a price of approximately \$7.2 million U.S. dollars. Sales and Earnings Highlights

Consolidated net sales for the first quarter of 2014 were \$74.9 million, up 2% over last year's first quarter net sales of \$73.6 million. Earnings from operations increased 4% to \$4.9 million this quarter, from \$4.7 million in 2013. Consolidated net earnings attributable to Weyco Group, Inc. were flat at \$3.2 million in the first quarters of 2014 and 2013. Diluted earnings per share were \$0.29 for the three months ended March 31, 2014, compared to \$0.30 per share in last year's first quarter.

The majority of the increase in consolidated net sales came from the Company's wholesale segment. Wholesale net sales increased \$1.5 million this quarter, compared to the same period last year. This increase was primarily due to higher sales of the BOGS, Florsheim and Nunn Bush brands.

Consolidated earnings from operations increased \$182,000 for the quarter. Earnings from operations in the Company's wholesale and retail segments were down slightly for the quarter, however, Florsheim Australia's earnings from operations increased due to improved performance of its retail businesses.

Financial Position Highlights

At March 31, 2014, cash and marketable securities totaled \$47.5 million and outstanding debt totaled \$9.0 million. At December 31, 2013, cash and marketable securities totaled \$46.2 million and outstanding debt totaled \$12.0 million. The Company's main source of cash for the first three months of 2014 was from operations. The Company's main uses of cash during the three month period were for the purchase of marketable securities, payment of dividends, and payments on the revolving line of credit. The Company also had \$300,000 of capital expenditures.

SEGMENT ANALYSIS

Net sales and earnings from operations for the Company's segments in the three months ended March 31, 2014 and 2013, were as follows:

North American Wholesale Segment

Net Sales

Net sales in the Company's North American wholesale segment for the three months ended March 31, 2014 and 2013, were as follows:

North American Wholesale Segment Net Sales

	Three Months Ended March 31,		%
	2014	2013	
	(Dollars in thousands)		
North American Net Sales			
Stacy Adams	\$ 17,761	\$ 18,716	-5%
Nunn Bush	16,612	16,135	3%
Florsheim	12,998	12,487	4%
BOGS/Rafters	7,767	6,303	23%
Umi	923	1,008	-8%
Total North American Wholesale	<u>\$ 56,061</u>	<u>\$ 54,649</u>	3%
Licensing	649	594	9%
Total North American Wholesale Segment	<u>\$ 56,710</u>	<u>\$ 55,243</u>	3%

The decrease in Stacy Adams first quarter net sales was primarily due to lower sales with national shoe chains. Net sales of the Nunn Bush brand were up due to increased sales with national shoe chains. Florsheim's net sales were up due to higher sales volumes with department stores, national shoe chains and internet retailers. The increase in BOGS/Rafters net sales was primarily due to higher sales volumes of BOGS winter boots as a result of the long, harsh winter. In the first quarter of 2014, BOGS net sales were up mainly with internet retailers.

Within the Company's portfolio of brands, Stacy Adams and Umi are the brands most impacted by the timing of Easter. Easter was three weeks later in 2014 than in 2013, which caused Easter shipments to fall more in April this year versus March last year. As of the end of April 2014, Stacy Adams had already made up a significant portion of the year-to-date shortfall, and Umi had exceeded last year's year-to-date shipments.

Licensing revenues consist of royalties earned on the sales of branded apparel, accessories and specialty footwear in the United States and on branded footwear in Mexico and certain overseas markets.

Earnings from Operations

Earnings from operations in the North American wholesale segment were \$3.6 million in the first quarter of 2014, compared to \$3.7 million in 2013. Wholesale gross earnings were \$17.2 million, or 30.4% of net sales, in the first quarter of 2014, compared with \$17.1 million, or 31.0% of net sales, in last year's first quarter. The decrease in gross earnings as a percent of net sales was partially due to the weaker Canadian dollar relative to the U.S. dollar in 2014.

The Company's cost of sales does not include distribution costs (e.g., receiving, inspection or warehousing costs). Distribution costs for the three-month periods ended March 31, 2014 and 2013, were \$2.8 million and \$2.9 million, respectively. These costs were included in selling and administrative expenses. The Company's gross earnings may not be comparable to other companies, as some companies may include distribution costs in cost of sales.

North American wholesale segment selling and administrative expenses include, and are primarily related to, distribution costs, salaries and commissions, advertising costs, employee benefit costs and depreciation. As a percent of net sales, wholesale selling and administrative expenses were 24% in the first quarter of 2014 and 25% in the same period last year.

North American Retail Segment

Net Sales

Net sales in the Company's North American retail segment decreased \$542,000, or 9%, in the first quarter of 2014, compared to the same period last year. There were six fewer domestic retail stores during the first quarter of 2014 than there were in last year's first quarter, as the Company has been closing unprofitable stores. Same store sales, which include retail store sales and U.S. internet sales, were down 1% for the quarter.

Earnings from Operations

Earnings from operations in the North American retail segment decreased 5% to \$418,000 in the first quarter of 2014, compared to \$442,000 in the first quarter of 2013. Retail gross earnings were 65.2% of net sales in the first quarter of 2014, up from 65.0% of net sales in 2013. Selling and administrative expenses were flat at 57% of net sales in the first quarters of 2014 and 2013. Selling and administrative expenses for the retail segment include, and are primarily related to, rent and occupancy costs, employee costs and depreciation. The decrease in retail earnings from operations was primarily due to lower sales volumes.

Other

The Company's other businesses include its wholesale and retail operations in Australia, South Africa, Asia Pacific and Europe. Net sales of the Company's other businesses were \$13.0 million in the first quarter of 2014, up 3% as compared to \$12.6 million in 2013. The majority of the Company's other net sales were generated by Florsheim Australia. For the quarter ended March 31, 2014, Florsheim Australia's net sales were up 1% for the quarter; however, in local currency, its net sales were up 17%. This increase was due to higher sales volumes in both its retail businesses, where same store sales were up 19%, and its wholesale businesses, where sales were up 13%. The increase was only 1% in U.S. dollars due to the weaker Australian dollar relative to the U.S. dollar in 2014.

Collectively, the operating earnings of the Company's other businesses were \$884,000 this quarter, up 72% as compared to \$514,000 in the first quarter of 2013. This increase was primarily due to improved performance of Florsheim Australia's retail businesses.

Other income and expense and taxes

Interest income for the first quarter of 2014 was down approximately \$123,000 compared to the first quarter of 2013, due to a lower average investment balance this year compared to last year. Interest expense was down \$85,000 for the quarter, due to a lower average debt balance this year compared to last year.

The Company's effective tax rate for the quarter ended March 31, 2014, was 35.0% as compared with 36.0% for the same period of 2013.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary sources of liquidity are its cash, short-term marketable securities and its revolving line of credit. The Company generated \$8.3 million of cash from operating activities during the first three months of 2014, compared to \$3.7 million in the same period one year ago. The increase between years was primarily due to changes in operating assets and liabilities, and most significantly, in the accounts receivable, accrued liabilities and inventory balances.

The Company paid \$3.9 million of cash dividends in the first quarter of 2014. No dividends were paid in the first quarter of 2013, as the Company accelerated the timing of those dividends into 2012 in anticipation of tax law changes effective January 1, 2013. The Company resumed its regular quarterly dividend payment schedule in the second quarter of 2013.

The Company continues to repurchase its common stock under its share repurchase program when the Company believes market conditions are favorable. During the first quarter of 2014, the Company repurchased 3,282 shares at a total cost of \$81,000. As of March 31, 2014, the Company had 625,193 shares available under its previously announced stock repurchase program. See Part II, Item 2, "Unregistered Sales of Equity Securities and Use of Proceeds" below for more information.

Capital expenditures were \$300,000 in the first three months of 2014. Management estimates that annual capital expenditures for 2014 will be between \$2 million and \$3 million.

At March 31, 2014, the Company had a \$60 million unsecured revolving line of credit with a bank expiring November 5, 2014. The line of credit bears interest at LIBOR plus 0.75%. The Company repaid a net of \$3 million on the line of credit during the first three months of 2014. At March 31, 2014, outstanding borrowings were approximately \$9 million at an interest rate of 0.90%. The highest balance on the line of credit during the quarter was \$12 million.

The Company made a contingent consideration payment of \$1,270,000 in the first quarter of 2013. The second contingent consideration payment is due in March 2016. See Note 10.

As of March 31, 2014, \$3.6 million of cash and cash equivalents was held by the Company's foreign subsidiaries.

The Company will continue to evaluate the best uses for its available liquidity, including, among other uses, capital expenditures, continued stock repurchases and additional acquisitions.

The Company believes that available cash and marketable securities, cash provided by operations, and available borrowing facilities will provide adequate support for the cash needs of the business for at least one year, although there can be no assurances.
