### 3. Segment Information

The Company continues to operate in two operating segments: wholesale distribution and retail sales of men's footwear, which also constitute its reportable segments. None of the Company's operating segments were aggregated in determining the Company's reportable segments. The chief operating decision maker, the Company's Chief Executive Officer, evaluates the performance of its segments based on earnings from operations and accordingly, interest income, interest expense and other income or expense are not allocated to the segments. Summarized segment data for the quarters ended March 31, 2008 and 2007 was:

SFAS 157 was effective for the Company on January 1, 2008 and had no impact on the Company's consolidated financial statements.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### OVERVIEW

The Company is a distributor of men's casual, dress and fashion shoes. The principal brands of shoes sold by the Company are "Florsheim," "Nunn Bush," and "Stacy Adams." The Company also has other brands, including "Brass Boot" and "Nunn Bush NXXT," which are included within Nunn Bush net sales figures, and "SAO by Stacy Adams," which is included within Stacy Adams net sales. Inventory is purchased from third-party overseas manufacturers. The majority of foreign-sourced purchases are denominated in U.S. dollars. In the wholesale division, the Company's products are sold to shoe specialty stores, department stores and clothing retailers primarily in North America, with some distribution in Europe. The Company also has a retail division, which as of March 31, 2008, consisted of 39 Company-owned retail stores in the United States, two in Europe, and an Internet business. Sales in retail outlets are made directly to consumers by Company employees. The Company also has licensing agreements with third parties who sell its branded shoes overseas, as well as licensing agreements with apparel and accessory manufacturers in the United States. As such, the Company's results are primarily affected by the economic conditions and the retail environment in the United States.

Consolidated net sales in the first quarter of 2008 were \$61.3 million, down 4% compared with \$63.9 million the first quarter of 2007. Wholesale sales were down 4%, and retail sales were down 2%. Net earnings for the quarter ended March 31, 2008 were \$5.1 million, or \$.43 per diluted share, compared with \$5.7 million, or \$.47 per diluted share in 2007. A detailed analysis of operating results follows.

### RESULTS OF OPERATIONS

#### Wholesale Sales

Sales in the Company's wholesale division for the three-month periods ended March 31, 2008 and 2007 were as follows:

Wholesale Division Sales	Three Months Ended March 31,		% Change
	2008	2007	
	(Dollars in thousands)		
North American Sales			
Stacy Adams	\$ 18,299	\$ 18,580	-1.5%
Nunn Bush	17,488	17,693	-1.2%
Florsheim	14,811	17,065	-13.2%
Foreign Sales	<u>2,540</u>	<u>2,186</u>	16.2%
Total Wholesale	\$ 53,138	\$ 55,524	-4.3%
Licensing	1,050	1,086	-3.3%
Total Wholesale Division	<u>\$ 54,188</u>	<u>\$ 56,610</u>	-4.3%

Wholesale sales for the first quarter of 2008 were down 4% compared with last year's first quarter. All three of the Company's brands were impacted this quarter by the current challenging retail environment. Florsheim sales were additionally impacted by the timing of

new programs. In the first quarter of 2007, Florsheim rolled out a number of new shoe programs introducing contemporary and casual styles. In 2008, there were no new product introductions of a similar scale.

## Retail Sales

Retail net sales in the first quarter of 2008 were \$7.1 million, down 2% from last year's \$7.25 million. Same store sales were down 5% in comparison to the first quarter of 2007. Stores are included in same store sales beginning in the store's 13<sup>th</sup> month of operations after its grand opening. The Company's management believes the performance of the retail division this quarter was consistent with the current overall retail environment.

## Gross Earnings

Overall gross earnings were 36.3% of net sales in the three months ended March 31, 2008 compared with 36.1% of net sales in the prior year period. Wholesale gross earnings were 31.1% of net sales in 2008 compared with 31.0% in 2007. In the retail division, gross earnings were 66.0% of net sales compared with 65.6% in the first quarter of 2007.

The Company's cost of sales does not include distribution costs (e.g., receiving, inspection or warehousing costs). The Company's distribution costs for the three months ended March 31, 2008 and 2007 were \$1,843,000 and \$1,697,000, respectively. These costs were included in selling and administrative expenses. Therefore, the Company's gross earnings may not be comparable to other companies, as some companies may include distribution costs in cost of sales.

## Selling and Administrative Expenses

The Company's selling and administrative expenses include, and are primarily related to, distribution costs, salaries and commissions, advertising costs, employee benefit costs, rent and depreciation. In the current quarter, selling and administrative expenses were 23.9% of net sales versus 22.5% of net sales in 2007. Wholesale selling and administrative expenses were 19.5% of net wholesale sales in 2008 compared with 18.7% in 2007. Wholesale selling and administrative expenses were flat in dollars, but the lower sales volume in the current year caused the increase in costs as a percent of sales. This reflects the fixed nature of many of the Company's wholesale selling and administrative expenses. Retail selling and administrative expenses were 60.9% of net sales in 2008 and 55.1% of net sales in 2007. The increase in retail selling and administrative expenses as a percent of sales was due to higher rent and occupancy costs at some existing stores, as well as higher expenses in relation to sales at the Company's newer stores.

## Interest and Taxes

Interest income in the first quarter was approximately \$510,000 this year and last year. Interest expense during the three months ended March 31, 2008 was \$10,000 compared with last year's \$123,000. The decrease was due to lower average short-term borrowings in the first quarter this year compared with last year. The Company's effective tax rate in the first quarter of 2008 was 36.7% compared with 37.2% in the first quarter of 2007. This year's lower rate was primarily due to an increase in municipal bond income included in this year's interest income, as the Company had more invested in municipal bonds in the first quarter of this year compared with the same period of last year.

## **LIQUIDITY & CAPITAL RESOURCES**

The Company's primary source of liquidity is its cash and short-term marketable securities. During the first quarter of 2008, the Company's primary sources of cash were from operations and borrowings under its revolving credit agreement while its primary use of cash was repurchases of the Company's stock. The Company also spent \$1 million on capital expenditures in the first quarter of 2008 of which approximately \$800,000 was related to retail store remodeling. Capital expenditures are expected to be approximately \$2 million for the full year of 2008.

The Company generated \$2.1 million in cash from operating activities in the first quarter of 2008, compared with \$2.7 million in the prior year period. This decrease was primarily due to lower net earnings in 2008.

Cash dividends paid were \$1.3 million and \$1.1 million in the three months ended March 31, 2008 and 2007, respectively. On April 29, 2008, the Company's Board of Directors declared a quarterly dividend of \$.14 per share to shareholders of record June 2, 2008, payable July 1, 2008. This represents an increase of 27% in the quarterly dividend rate. The impact of this will be to increase cash dividends paid annually by approximately \$1.4 million.

The Company continues to repurchase its common stock under its share repurchase program when the Company believes market conditions are favorable. In the first quarter of 2008, the Company repurchased 146,700 shares for a total cost of \$4.3 million. The Company currently has 770,207 shares available under its previously announced buyback program.

As of March 31, 2008, the Company had a total of \$50 million available under its borrowing facility, under which total outstanding borrowings were \$3 million. The facility includes one financial covenant that specifies a minimum level of net worth. The Company was in compliance with the covenant at March 31, 2008. The facility expired on April 30, 2008, at which time the Company entered into a new \$50 million 364-day borrowing facility. This new facility, which also includes a minimum net worth covenant, expires on April 30, 2009.

The Company will continue to evaluate the best uses for its free cash, including continued increased dividends, stock repurchases and acquisitions.

The Company believes that available cash and marketable securities, cash provided by operations, and available borrowing facilities will provide adequate support for the cash needs of the business in 2008.
